2nd Sendai Interaction Program

[Overview]

1 Theme

Kobe University Secondary School SGH 「Earthquake Disaster Reconstruction and Risk Management」

Disaster・Reconstruction・Reduction・Resilience (DR3) is the theme for the Sendai Interaction Program (DR3).

2 Purpose

Kobe and Sendai students will interact to share ideas as to how we should deal with an earthquake disaster. Since both areas are disaster areas, we would be able to learn deeply and think about risk management.

Details are as below.

- (1) Think together and learn about the disaster that happened in your area/think about the disaster which may happen in the future.
- (2) Visit disaster remains, listen to the stories of the victims of the disaster and think about what we should share to future generations.
- (3) Do a drilling investigation to learn and understand the earthquake from the point of view of natural science.
- (4) Through the above activities, we aim to foster students who can think and care about other people.

3 Schedule

Dec. 14	6:10 7:10 8:25 10:00-12:00 14:00-17:30	Meet at Kansai International Airport Departure: Kansai International Airport Flight: MM131 Arrival: Sendai Airport Sendai Airport Station→ Sendai Station Sendai Station→ Sendai Shirayuri Station Activities at Sendai Shirayuri Station Interaction with Sendai Reimei Junior and Senior High School (SSH)
Dec. 15 Fieldwork with Tagajo High School	8:00 9:30 11:00 13:00 16:30 16:30-18:30	Tagajo High School Visit Minamisanriku, Ishinomaki-view how to manufacture Ogatsusuzuri Ookawa Elementary School Fieldwork in Onagawa-cho Tagajo High School Discussion and interaction JR Nobiru station, visit the illumination event “Hope of the Rainbow” Visit the disaster ruins of Nobiru station
Dec. 16	9:30 14:30-15:30 16:00-17:30 18:30 20:10	Visit disaster restoration housing at Tsurugaya area. Interaction with Tohoku University, SCRUM Interaction with Tohoku University Division for Leading Graduate School Program Sendai Airport Departure: Sendai Airport Flight: MM140

21:50

Arrival: Kansai International Airport

4 Activities

SGH-Sendai Shiraishi Gakuen • Presentation

We had lunch meeting with students in Sendai Shiraishi Gakuen

Snapshot with Sendai Shiraishi Gakuen Students

Presentation at SSH-Furukawa Reimei High School

Our 5th grade student is doing a presentation of his research

Interaction with Furukawa Reimei High School students

We are doing a group meeting

Meeting for the fieldwork

We visited Tsurishi Shrine, which is famous for its huge stone. It is famous because it never falls off from the cliff. The shrine is said it has a good fortune for the students who are going to have an entrance exam. The shrine was reconstructed because of tsunami disaster.

The point where the tsunami reached

The view from the point where the tsunami reached

We were able to hear the story from the family members of those who died because of the tsunami at Ookawa Elementary School

We were able to hear the story from the family members of those who died because of the tsunami at Ookawa Elementary School

We are climbing up the mountains behind the elementary school. It is said that the students would have been safe if they escaped here.

Tagajo High School Principal, Mr. Koizumi is explaining about the situation to us.

We visited the manufacturing plant of Ogatsu-suzuri.

View from Onagawa Station. Onagawa citizens made up their mind not to build the breakwater and live together with the ocean

We were able to hear a story from the people in Onagawa.

Interaction with the Tagajo High students after fieldwork.

We are doing a presentation

We did group activities and discussed about the disaster prevention game.

Illumination event "Hope of the Rainbow" at JR Nobiru station

Illumination event "Hope of the Rainbow" at JR Nobiru station

We visited disaster restoration housing at Tsurugaya area.

We visited disaster restoration housing at Tsurugaya area.

On top of the housing, there is a disaster prevention storage

We enjoyed interacting with the tenants.

Group snapshot

Interaction with Tohoku University SCRUM.

Interaction with Tohoku University Division for Leading Graduate School Program

We reported about the disaster prevention game activities we have been doing.

Graduate students gave us good advice.

We made a flag together and gave it to the graduate students.
